

Language Communities Overview

INEE Language Communities are vibrant forums that foster collaborative resource development and knowledge-sharing among Arabic, French, Portuguese and Spanish-speaking members of INEE. The INEE Language Communities collate and disseminate key resources in the relevant languages, and where gaps are identified, work to develop or translate new tools and case studies. The Language Communities also undertake advocacy and outreach in Arabic-speaking, Lusophone, Francophone and Hispanophone countries, raising awareness about the importance of education for those affected by crisis. Furthermore, the Language Communities support and facilitate training and capacity-building opportunities for non-Anglophone INEE Members.

Each Language Community also has a Facilitator who serves as a link between the INEE Secretariat and members of the Language Community. The Facilitator provides monthly updates for members, keeping them apprised of new developments and opportunities within the field of education in emergencies and within INEE.

How to Join an INEE Language Community

When you join INEE (www.ineesite.org/join), you will be given an option to select your working languages; this automatically links you to the corresponding Language Community. If you are already a member of INEE and would like to modify your Language Community preferences, please log in to your account, click on "Edit Your Profile" and then select the working language of the corresponding Language Community you would like to join. Alternatively, you can email the Language Community Facilitator directly to indicate your interest.
